# MiniBallCourts

...Get In The Game. Get the picture.

The biggest problem every basketball fan experiences literally is wanting to be as close the action as possible—even taking buzzer beating 3's, thunder dunking with the clock running down or scoring game winning free throws.

MiniBallCourts fill two specific needs:

1.) Maximizes YouTube fans' Game Day experiences by giving them the opportunity (on a mini-scale) to take the game winning shots and drive the lane for scores... with a mini-court-pic of a pro, college or high school courts.

2.) Instantly and wildly popular product (for EVERY team – pro & college, EVERY season) plus one-of-a-kind murals combining team's home and practice courts as commemorative editions and collector's items.

No Batteries Required...  
Only A Little Imagination

1987

*“First created more than forty years ago during study hall at Margaret Spellacy Jr. High school in Cleveland when I was a Cavs basketball-crazed, yet bored junior high student, I drew a basketball court on a scrap sheet of paper and imagined making shots like ‘Bingo’ Smith, layups like Austin Carr and game-winners like Dick Snyder”.*

...what became a wildly popular “old school” mini-basketball game is the heart of MiniBallCourts.

MiniBallCourts: The Game

## What it does?

...from the vision of a teenaged-Cavs fan several decades ago, a totally new dimension for present and future fans game experience - the unique opportunity to...

“Play” on actual mini-pro-courts- More realistic than video games & hours of fun...**on paper**  
“Be a player” on your favorite pro or college team- Pass & shoot and dunk like LeBron...**on paper**
